PROFESSIONAL SUMMARY

Front-End Web Developer with extensive freelance experience in building responsive web applications using React, TypeScript, and TailwindCSS. Proficient in Git, GitHub, and deployment platforms like Vercel . Holds additional skills in Python and Django, enabling seamless full-stack integration.

Strong background in performance optimization, Webpack bundling, lazy loading, and conducting Lighthouse audits. Experienced in implementing authentication protocols and security best practices (OWASP, HTTPS). Adept at data structures, algorithms, and problem-solving to enhance application efficiency. Seeking to expand expertise in full-stack development by leveraging API integration, authentication, and DevOps principles.

WORK HISTORY

Front-End Developer, 07/2024 - Current

Hypersence Technology, Hybrid

- Developed custom websites using HTML, CSS, JavaScipt, ReactJS, and TailwindCSS improving user experience and engagement.
- Enhanced web development plans to meet client requirements within assigned timeframes, leading to increased project efficiency and client satisfaction
- Integrated Git version control and managed deployments on Vercel, ensuring seamless CI/CD workflows.
- Enhanced website scalability and performance using lazy loading, and Lighthouse audits.
- Conducted in-depth testing and debugging to eliminate errors, increasing application reliability.

Front-End Developer, 08/2024 - 06/2024

LevelUp Recyclers, Remote

- Collaborated with a team of developers to design and develop a responsive website for LevelUP Recyclers, leveraging Next.js, TypeScript, and Tailwind CSS.
- Delivered a seamless and user-friendly interface, improving user engagement and showcasing the company's commitment to sustainability.
- Integrated dynamic features and optimized site performance to ensure scalability and responsiveness across all devices.
- Conducted rigorous testing and debugging to enhance website reliability and maintain high-quality standards.
- Worked closely with stakeholders to understand requirements and translate them into actionable development plans, achieving project goals efficiently.

SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- ReactJS
- Next.js
- TailwindCSS
- Python
- Django
- Git
- GitHub
- Vercel

EDUCATION

Bachelor of Science (BSc.), Computer Science, 11/2024 - Current
LAGOS STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY (LASUSTECH)

Ikorodu, Lagos, Nigeria

Data Science Trainee, 08/2023 - 03/2024

Yomi Denzel Foundation, Lagos, Nigeria

- Completed rigorous training in data science methodologies, specializing in statistical analysis and machine learning techniques
- Applied theoretical knowledge to practical projects, mastering data manipulation and modeling using Python
- Collaborated effectively with peers and mentors, honing problem-solving skills and adhering to ethical data practices.

Python Programming Trainee, 08/2023 - 03/2024

Yomi Denzel Foundation, Lagos, Nigeria

- Completed intensive training in Python development, gaining proficiency in clean, well-integrated code and best coding practices
- Participated in hands-on projects to apply Python skills in building and optimizing website connectivity and services
- Collaborated with experienced developers to enhance project management abilities and attention to detail in meeting performance and security goals.
- Adopted expertise in Django and Flask according to data warehousing requirements.

High School Diploma, Science, 02/2022 - 07/2022, GOSKIA GROUP OF SCHOOLS

Lagos, Nigeria
